

Cuts and restructuring in Manitoba's health care system are causing disruption for patients and nurses. We want to measure how these changes and other factors are affecting MNU members.

MNU has partnered with the University of Winnipeg to conduct an online survey of all MNU members on Psychological Health at Work. The survey is voluntary and anonymous, and it is accessed through the link below. The survey will be live online from March 5, 2018 to March 19, 2018.

We encourage you to speak openly about your experiences at work. The information we gather will help us to advocate for safe, healthy work environments for all nurses.

If you have any questions about the survey before beginning, please contact Ms. Mikaela Brooks, Researcher, at [mbrooks@manitobanurses.ca](mailto:mbrooks@manitobanurses.ca) or (204) 942-1320 Ext. 208.

To learn more about the survey through its Information and Consent form, please click the link below. Within the link, by clicking Continue it is understood that you consent to participate. By consenting, you do not waive any legal rights.
