

Dear members

The results are in, and I'm proud to announce that **MNU has won every union representation vote** in the nursing sector, including Shared Health, WRHA & Southern region!

Shared Health: 96.2% for MNU; 67.9% overall turnout

Southern: 96.6% for MNU; 68.1% overall turnout

WRHA: 90.9% for MNU; 64.4% overall turnout

We are humbled by the overwhelming support we have received from nurses. I want to thank every nurse who took the time to cast a ballot in these votes. It speaks to the incredible power of unity and the connection nurses feel within our profession. Our strength comes directly from our members, so it's all of you that make MNU the strongest union in our province.

But nurses saw these votes as more. It was an opportunity to send a strong message that we are united and ready to bargain, and together, we did just that.

In addition to maintaining our membership, we're thrilled to welcome over 500 new nurses to our ranks. Our strength as a union grows.

I want to thank all of our nurses organizers, local/worksite presidents, executive members, board members, ward reps, staff and even retirees who worked tirelessly throughout the campaign to make sure nurses understood the importance of coming out to vote. It was a long campaign, made even tougher by busy summer schedules, but you did incredible work and we are so much stronger because of it!

When nurses work together, we are unstoppable. Now we must continue our work to meet the challenges that lie ahead with the same strength we've shown through these votes.

Thank you for your continued support.

Sincerely,

Darlene Jackson
MNU President
